Fire danger is LOW. Some welcome relief today for the dry fuel and weather conditions, despite the fact that it came in the form of snow in many locations. Dead fuels are sufficiently soaked but the relief will not last long. An extended period of dry weather is forecast starting with clearing tonight and continuing through the upcoming weekend. Fire danger will remain LOW tomorrow as snow melts and drying begins. Open burning is allowed where conditions are favorable.

[Six Minutes for Safety: An interagency safety initiative that address high-risk situations that historically get firefighters in trouble.](#)

Report Submitted by: Tess Greaves, VT Dept. of Forests, Parks & Recreation
